

ONLY USE CULLEN 3.4X35MM SQUARE TWIST NAILS IN SMALL 4MM DIAMETER ROUND HOLES.

DO NOT USE WOOD SCREWS IN ANY METALWORK SUPPLIED BY ENGINEERED TIMBER SOLUTIONS.

Cullen/Paslode 3.4x35mm galvanised SC2 square twist nails

Round Holes -
Should always be filled

Triangular Holes -
Optional where indicated

There are a few metalwork items that have special fixings which ETS supply along with the metalwork. These are HGG, HMH & VHGG hangers.

- HGG require Paslode PSTS 6.5x65mm screws
- HMH(197mm deep) require Paslode PSTS 6.5x65mm screws

Paslode Structural Timber Screws

- HMH(122 & 147mm deep) require 3.35x50mm annular ring shank nails
- VHGG require M-20 bolts and washers (supplied at 180mm long unless required for 4 ply truss, 240mm bolts will be supplied)

PLEASE DO NOT SUBSTITUTE FOR OTHER FIXINGS AS THESE WILL NOT BE COVERED BY THE MANUFACTURER.
